Subject: Microsoft Settlement

To Whom it May Concern:

I am writing to comment on the proposed settlement of the United States vs. Microsoft antitrust case.

I am against the current proposed Microsoft settlement -- It does not provide any remedy to the continueing and systemic antitrust violations that Microsoft has committed over the past 10 years, nor does it promise to prevent any future violations.

The proposed settlement does nothing to address the 'Microsoft tax' present on the vast majority of PC systems available for purchase on the market. It is impossible to purchase a non-Windows system in any mainstream retail store in any area that I have researched.

Sincerely,

Peter Sanders
